

BARONE DI VILLAGRANDE
VIGNETI DAL 1727

Wine Tour Villagrande

Barone di Villagrande offers the guided tour of the Winery and the visit to our ancient cellar built in 1850.

The aim is to transfer to our guests the peculiarities of the Etna and the commitment that we put with perseverance and passion, in the production of DOC wines for them to be an authentic expression of the territory.

We provide various options in order to meet the needs of our guests. Every visit includes a welcome on our terrace with view over the vineyard which is structured as an amphitheatre and overlooks the Gulf of Catania. We will start by introducing some information about the family and the history of the Etna wine with a focus on the territory and its characteristics.

From the terrace we will then move towards our Cellar, built in 1850, starting from our “Bottaia”, talking about our wines and the unique use of the Chestnut wood for our barrels. We are the only winery on the Etna area that uses Chestnut barrels today. Here you will have the chance to see the how the gravitational system of vinification, called “palmento”, worked.

Different tasting different formulas are available as follows:
