

BARONE DI VILLAGRANDE

VIGNETI DAL 1727

# ***Wine Tour Villagrande***

Barone di Villagrande offers guided tours of the Winery including our ancient cellar built in 1850.

The aim is to transfer to our guests the peculiarities of Etna winemaking and the commitment that we put with perseverance and passion, in the production of DOC wines, for them to be an authentic expression of the territory.

We provide various options in order to meet the needs of our guests. Every visit includes a welcome on our terrace with a view over the vineyard which is structured as an amphitheater and overlooks the Gulf of Catania. We start by introducing some information about the family and the history of the Etna wine with a focus on the territory and its characteristics.

From the terrace we will then move towards our Cellar, built in 1850, starting from our “Bottaia”, talking about our wines and the unique use of the Chestnut wood for our barrels. We are the only winery on the Etna area using Chestnut barrels today. You will also have the chance to see the how the gravitational system of vinification, called “palmento”, worked.

Different tasting different formulas are available as follows:
